**NATIONAL MATHEMATICS DAY- 2020**

## Theme: “Mathematics is Everywhere”

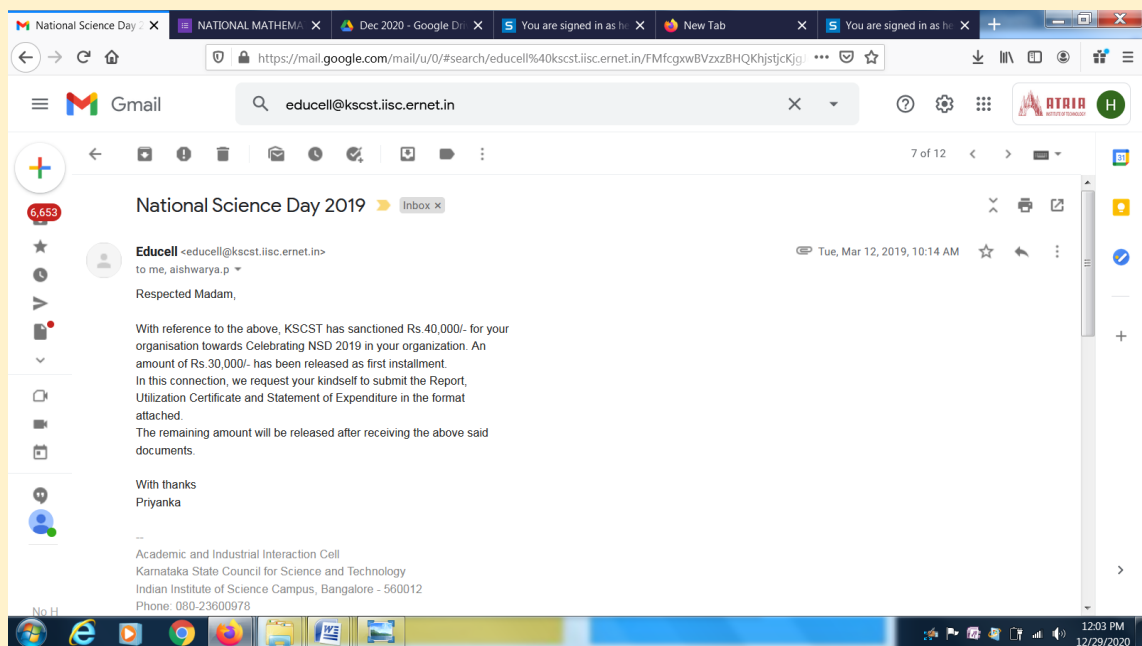

### Background

The Indian Government declared 22 December to be **National Mathematics Day**. This was announced by Prime Minister Manmohan Singh on 26 February 2012 at Madras University, during the inaugural ceremony of the celebrations to mark the 125th anniversary of the birth of the Indian mathematical genius Srinivasa Ramanujan (22 Dec 1887- 26 Apr 1920). On this occasion Singh also announced that 2012 would be celebrated as the National Mathematics Year. Since then, India's National Mathematics Day is celebrated every 22 December with numerous educational events held at schools and universities throughout the country.

**Karnataka State Council Of Science & Technology (KSCST)**, every year celebrates National Mathematics Day on 22nd December to commemorate the Birthday on **Srinivasa Ramanujam**. Karnataka State Council for Science and Technology has taken many science popularization activities and of these activities National Mathematics Day celebrations is one of the major events.

Atria Institute of Technology is celebrating National Mathematics Day for the first time by organizing Mini Math related CG project exhibition cum competition, Tech say, Make a Math model Competition, C for Mathematics, Keynote session on “Highlighting different career opportunities in the field of mathematics” and interaction with an experienced mathematician

## Program objectives

On the following objectives, Atria institute Of Technology is planning to conduct various competitions, activities, seminars are the typical skills and abilities that the student will have after conducting National Mathematics Day.

- To celebrate and appreciate the contribution of Mathematics Wizard Dr. Srinivasa Ramanujan
- Popularization of the mathematics and allied technical contents
- To foster scientific attitude towards mathematics among students
- Interaction with the experts and show case day to day actions in mathematics
- Confident about Preparation of models, posters tech say, coding for mathematical expressions
- Eradicate phobia and fear against Mathematics among students by Math Fun activities
- Take leadership and mentoring roles during the design and implementation phases of CG projects which are related to mathematics
- To encourage innovative ideas with students and others.
- Apply ethical standards, principles of design for sustainable development, and environmental consideration to conceptualizing and implementing industry-related projects

The Celebration has been started by online Inaugural function .

## Poster/Invitation:

The poster is a white rectangular invitation with a background of faint mathematical diagrams and formulas. At the top left, it says 'Hosted by Department OF CS & E'. In the center, the Atria Institute of Technology logo is displayed above the text 'INVITES YOU FOR THE VIRTUAL INAGURATION & CELEBRATION OF "NATIONAL MATHEMATICS DAY"'. Below this, the date and time are given as '"22 DECEMBER 2020" 09:00AM to 10:00AM'. Three circular portraits are arranged horizontally: the first is for Dr. Aishwarya P, Professor & Head of CS&E; the second is for Dr. Dinesh P A, Associate Professor of Mathematics at M S Ramaiah Institute of Technology; and the third is for Dr. K V Narayanaswamy, Principal of Atria Institute of Technology. At the bottom, it states '10:00 AM ONWARDS : BLENDED MODE OF COMPETITIONS TO STUDENTS' and provides a Google Meet link: 'Link for the event <https://meet.google.com/cnh-dnke-oeg>'. On the right side of the poster, there is a vertical red bar with a faint portrait of a woman.

## Microflow of the program:

<b>TIME</b>	<b>EVENT</b>
09:00AM - 09:05AM	Arrival of the dignitaries through google Link
09:05AM - 09:10AM	Welcoming Address by Dr.Aishwarya P
09:10AM - 09:20AM	Presidential address by Dr. K V Narayanaswamy
09:20AM - 09:25AM	Introduction of Chief Guest by Dr. Nalinakshi N
09:25 AM– 10:00AM	Keynote Session by chief guest
10:00AM – 10:05AM	Vote of thanks –Prof. vasanthi
10:05AM – 10:10AM	Brief information of events

Master of Ceremony – Prof. Hemalatha K N

## Schedule of the activities:

**Student Co-ordinators:** Sruthi Malla( 2nd Year CSE)

Krithika jain ( 2nd Year CSE)

**Judges:** Dr. Nalinakshi N

Prof. chandini

**Description:**

Modeling with mathematics is the practice of making sense of the world through a mathematical perspective. This competition provides more opportunities to identify mathematical problems in the world, determine what information will help them solve a problem, develop mathematical models in an approachable way and revise their models to more closely predict real world phenomena.

**Round1:** All the participants will be asked with quiz questions and the participants with proper answer will be selected to next round

**Round2:** The organizers will provide required material to the participants (list of required components will be taken priory from participants)

**Round3:** All the participants will make a model which gives sense to mathematics

**Round4:** everyone will justify their mathematical model

**Winner:** Shreya Singh(1AT19CS108)  
Rajbala(1AT19CS091)

**Runner up:** Amrit Jha( 1AT19EC074)  
Yash s (1AT19IS123)

### Description:

The competition will provide an opportunity for Students to explore the mathematical solutions through C programming.

In this competition, participant students will realize any mathematical expression , ease any complex mathematical problem or beautify the mathematical expression with an easy logic through C coding.

The winners will be selected based on:

- Complexity in their problem
- Ease in solving their mathematical problem
- Algorithm
- Flow chart
- Input –output relationship

Dear Madam  
Greetings from Atria.I.T  
I would like to introduce myself as **Rajendra M** working as Asst.Professor in the Department of Computer Science & Engineering, Atria Institute of Technology. Department of CS&E has a strength of **400 students,24 faculty** and is associated with **KRSAC,VALUE Labs,KSCST** and Received grants from VGST,DST and Established labs in **RPA-BOT Lab-Automation Anywhere ,CISCO Networking Lab.**

We came across your profile through **Dr. Ram Mohan Babu Sir** and impressed with the ongoing achievements that you are pursuing and on behalf of Atria I request you to deliver a session on **"DBMS or Automata Theory "** to the students based on your availability. We would be grateful if you accept our request .

kindly oblige,

Looking forward to your favourable response

Mrs. Anitha Sandeep received BE in Computer Science & Engineering from SJMIT Chitradurga, Karnataka, India and M.Tech in Computer Science & Engineering from MSRIT Bangalore Karnataka

She is Currently working as a Assistant Professor in Computer Science & Engineering In RV College of Engineering, Bangalore

Her Interests are Game Theory ,Fuzzy Logic,Fuzzy Graphs,Theoretical Computer Science ,She has published around 15 papers in International Journals and Conferences.she has 19 years of teaching expereinces

Webinar is focused on Automata theory concepts revolving around the mathematical models of abstract computing machines in which the cfg was mainly focused on

### **Summary Of webinar:**

- Context-free grammars arise in linguistics where they are used to describe the structure of sentences and words in a natural language, and they were in fact invented by the linguist Noam Chomsky for this purpose.
- By contrast, in computer science, as the use of recursively-defined concepts increased, they were used more and more.
- In an early application, grammars are used to describe the structure of programming languages. In a newer application, they are used in an essential part of the Extensible Markup Language (XML) called the Document Type Definition.

### **Program Outcomes** –

- Enhancing the top models to the next level of improvement which gives the confidence for students to compete with National level Competitions
- Smaller projects have to be fused into Swam project which strengthens the quality of their project
- Planning to conduct such kinds of hands on sessions to first year students
