To whomsoever it may concern

I have reviewed the various Innovative Teaching Methods used by the faculties of Information science and Engineering, Atria Institute of Technology, Bengaluru. The Innovative Teaching Methods used like Role play , Group Discussion, charts, models, video, e-content etc prepared by faculty will be certainly helpful for the students and by using the Innovative Teaching Methods students will get more benefited while learning the subject and also it adds more value to their Courses they are studying. Keep the good work going and practice more innovative Teaching methods in future.
