Department of Civil Engineering

About Department
It's been a decade since Atria Institute of Technology launched its Civil Engineering Department in 2009. Being considered the best in the city for Civil Engineering, the department has proved itself on the quality of its academic programmes and is at par with the latest developments in engineering education. Affiliated to Visvesvaraya Technological University (VTU), the department currently has an intake of 60 students for its four-year bachelor's course providing Bachelor's Degree in Civil Engineering on successful completion. The department takes pride in producing several eminent engineers who are making notable contributions in the planning and execution of Civil Engineering projects both Nationally and Internationally.

About FDP
The course is mainly activity-based that will offer a set of activities for the student that enables them to connect with fellow human beings, nature, society, and the world at large. The course will engage student's interactive sessions, open mic, reading groups, storytelling sessions, and semester-long activities conducted by faculty mentors.
