<p>Report</p>	<p>The joy of giving lasts longer than the joy of getting. The happiness we feel after a particular event or activity diminishes each time we experience that event, a phenomenon is known as hedonic adaptation. But giving to others may be the exception to this rule, according to research in Psychological Science.</p> <p>The joy of giving was an initiative taken up by Rotaract club of Atria Institute of Technology in Support of Department of CSE, where donation amount collected from the faculty and students of Atria Institute of Technology was used for buying the necessities like Blankets, caps, toothpaste, toothbrushes, soaps, and bread which was distributed among the people in need who were living on the streets of Malleswaram and Yeshwantpur.</p> <p>We successfully donated around 50 Kits to the homeless, underprivileged and also labor workers living on the streets.</p> <p>The Benefits of Why giving?</p> <p>An act of kindness lasts long. It gives you a feeling of satisfaction and fulfillment, apart from giving underprivileged children a chance to improve their circumstances and lessen the hardships that they face in their daily lives. Donating to those in need that work for the cause of people with limited means is the best way to do your bit for the society as a whole. Doing all it takes to plug the gaps in “India Growth Story”.</p> <ul style="list-style-type: none"> <li>You get a feeling of satisfaction and fulfillment when you donate money.</li> </ul>

- The more you give, the richer you feel!
- Your small donation makes a lot of difference.
- A sense of giving back to the society you are a part of.
