<p>Report</p>	<p>One of the first conditions of happiness is that the link between man and nature shall not be broken,” said Leo Tolstoy. The relationship between human beings and the environment is important and it is necessary that they understand and work to keep it strong.</p>	

World Environment Day is celebrated on the 5th of June every year. It is celebrated to raise awareness and to take actions to conserve the environment.

Here in the Campus we celebrated in the Name “Project Hariyali”

Nature has been painting for us infinite pictures of beauty every day, according to John Ruskin. It is just that people fail to see what nature has to offer. It is for this reason that we have occasions like the World Environment Day to remind us of what we are missing out. Planting a sapling, holding placards, shouting slogans, going on a rally – all of this is definitely something but not everything. We should be a lot more conscious of the kind of environment we are a part of and try to make it sustainable. In order to do that, it is not enough to do all of this just for a day, but make it our lifestyle. Join in, and let us work together to make some real change.

List of activities conducted

1. Walkathon
2. Environ Quiz
3. Plant a Sapling
4. Short film on Environment.

1)Walkathon:-

Purpose:- To spread awareness about Environment.

Walkathon was one of the main events under Project Hariyali. The event was flagged off by our principal Dr. T N Sreenivas.

We had around 200 registrations for this event. The distance covered was around 5.3 km. Placards and banners were held by participants in order to spread awareness. Walkathon was completed in 1.5 hours, and refreshments and goodies were given to them upon return.

## 2) Environ Quiz

Purpose :- To test the knowledge of participants.

We had around 30 registrations for this event. The quiz was conducted in three rounds. The first two rounds were conducted on Kahoot and the last round was conducted as a rapid-fire round. The participants were filtered at each round and only 5 finalists were selected in the last round.

## 3) Planting a Sapling

Purpose :- To make the campus green and clean.

Planting a sapling was started off by planting a fruit sapling and HoDs, teachers and staff planted the saplings. Participants bought their own saplings to plant in the campus.

## 4) Short Film on Environment

Purpose:- To spread awareness about the environment.

We got around 3 group registrations for this event. Students were asked to shoot a short film within a given amount of time and the films were judged by the judges.
