DEPARTMENT OF INFORMATION SCIENCE AND ENGINEERING

INTERNSHIP BOOK 2021

Preface

As competition for graduate jobs increases, students need to think of new ways to set themselves apart from all the other equally qualified and skilled candidates. Graduates who have relevant workplace experience tend to be more valued by employers, and this makes **internships** an attractive prospect. An **internship** is an opportunity offered by an employer to potential employees, called interns, to work at a firm for a fixed period. Interns are usually undergraduates or students, and most internships last between a month and three months. Internships are usually part-time if offered during a university semester and full-time if offered during the vacation periods. An internship should give you practical skills, workplace experience and greater knowledge of that industry, in exchange for the employer benefiting from your labor. An internship can be either **paid** or **voluntary**. The trend is increasingly (and rightly) towards the former, as voluntary internships are often cited as exploitative. As you would expect, internships that pay well are usually the most competitive. This Internship book gives details about the students who got internships. These students belong to 2021 pass-out batch.

ABOUT THE DEPARTMENT OF INFORMATION SCIENCE AND ENGINEERING

Department of Information Science and Engineering (ISE) at ATRIA was established in the year 2000. The department offers Bachelor of Engineering (B.E) programme through VTU scheme and MTech. Programmes in Computer Networks and Engineering. The areas of specialization in the department are: Bioinformatics and Big Data, Internet of Things (IoT), Cloud Computing, Data Mining, Computer Networks, Big Data Analytics, Image Processing.

The Department of Information Science and Engineering has 16 faculty with 2 Doctorates and 9 pursuing PhD in various universities and 2 PhD registered. It hosts faculty who are involved in supporting funded research and guiding projects apart from training the students in academics. Faculty consulting for student internships and placements. Department houses facility for conducting various club activities, Infosys Campus Connect Foundation Program classes, remedial classes, bridge courses and other student-oriented programs. Also, department facilitates industrial visit programs to gain the industry experience.

The Department also has a reputed research center recognized by VTU. Well qualified and eminent faculty members who are guiding Ph. D. scholars in advanced areas of Information Sciences. The research Centre is actively involved in current areas of information technology presenting papers at conferences. Faculty of the department have executed many research projects supported by KSCST, VGST. Regular technical talks and seminars/workshops are being conducted for both faculty and students.

The department has Memorandum of Understanding with Companies like Apex HiTech, Infosys, Jetking, Geek Technologies, Mindweaver and Clevertize Pvt. Ltd. The faculty members are associated with Professional bodies such as IAENG, ICSES and EASTER. The industry relationship helps us frame the course curriculum in accordance with industry expectation and standards. Department publishes a newsletter by name PRAAPTHI, which showcases the activities on the department along with achievements of students and faculties.

The Department has an excellent placement track record with companies like MetorGraphics, Europhins, HPE, Infosys, Mindtree, Nineleaps, Theorax, Hashdin, Dell. Internship opportunities are provided for both final year and pre-final year students to carry out projects. The department has a prestigious alumni list who are excelling as software engineers and technical experts in various trending technologies. Secured admission in prestigious institutes of higher studies, as well as holding senior positions in reputed Private, Government and multinational corporations. A large number of alumni are pursuing higher studies/research in India as well as abroad in reputed universities like Carnegie Mellon, Georgia Technological University, Rochester State University, University of Southern California etc.,

MISSION AND VISION

VISION

To develop competent professionals with strong fundamentals in Information Science and Engineering, interdisciplinary research and ethical values for the betterment of the society.

MISSION

- ${\bf M1}$ To establish a transformational learning ambience with good infrastructure facilities to impart knowledge and the necessary skill set to produce competent professionals.
- ${\bf M2}$ To create a new generation of engineers who excel in their career with leadership/entrepreneur qualities.
- M3 To promote sustained research and innovation with an emphasis on ethical values.

PRINCIPAL'S MESSAGE

Dr. T N Sreenivasa

Principal, Atria Institute of Technology

ATRIA IT is a place for people who desire to solve problems, to discover, to create, to design, to invent, and to innovate—and all of this with the goal of having an impact on society.

We assure you that every student coming to the college receives personalized attention and is supported through effective student support services including mentorship, counseling, job placement and internship. We are proud of our student placement and internship with a diverse set of industries. Our alumni have distinguished themselves in many ways, and we expect that future generations will do the same.

We are grateful to all our well-wishers and alumni for providing support in the placement, training and participation in the curricular and extra-curricular activities and look forward same in the years ahead.

HEAD OF THE DEPARTMENT MESSAGE

DR. SHANTHI MAHESH,

Head of the Department, Dept. of Information Science and Engineering, Atria Institute of Technology

During study at the department, the students are encouraged to get hands-on experience in the corporate world through internship projects with reputed organizations. In their curriculum, they are encouraged to take up mini projects to supplement theoretical knowledge with practical experience. They also undertake projects benefiting local industries or dealing with local problems. These projects enable them to understand the relevance of working in a group and also help them to realize the finer aspects and importance of teamwork.

With all these inputs one finds our students hardworking, practical-oriented and effective in any work environment. We have designed our syllabus to strike a balance between professional knowledge and personal skills. We are confident that our current curriculum has enabled the overall development of budding managers to come up with the expectations of the corporate world.

The curriculum is taught by a distinguished faculty combining academic excellence and real-world experience with dedication and commitment. We are encouraged to see many industries coming back to our department, which reinforces our belief in the effectiveness of our curriculum and its suitability to meet the dynamic corporate world.

DEPARTMENT INTERNSHIP COORINDATOR

MR. OMPRAKASH B,Assistant Professor,
Atria Institute of Technology

I, Mr. Omprakash B, Assistant Professor, have 8+ years of experience in teaching and I'm associated with Atria Institute of Technology, since 2016. I'm currently pursuing Ph.D. from Visvesvaraya Technological University, Belagavi.

As an Internship coordinator, I have helped students in getting internships from start-up companies to MNC companies through my contacts and communication. Major main responsibility is to provide 100% internships opportunities to the final-year students as per the academic requirements. Once students get into a company as an intern, I keep a track of their work and act as a SPOC between the company and the college, Atria IT. After every week of the internship, students must give me an update on their work in terms of a presentation and a report, this helps me understand what students are learning and how well the internship is helping them out to shape their career.

Internships also offer students a hands-on opportunity to work in their desired field. An internship can be an excellent way to try-out a certain career. Also, if a student wants to opt for higher education in abroad universities, then such profound universities consider internships as a count towards course credit.

OBJECTIVES & OUTCOMES

- The internship experience to enable students to develop their engineering skills and practice.
- Students will experience a real-life engineering workplace and understand how their engineering and professional skills and knowledge can be utilized in industry.
- Can demonstrate functioning engineering knowledge, both new and existing, and identify areas of further development for their future careers.

LEARNING OUTCOMES

Upon completion of an internship, students will be able to demonstrate the following outcomes:

- Experience of applying existing engineering knowledge in similar or new situations
- Ability to identify when new engineering knowledge is required and apply it.
- Ability to integrate existing and new technical knowledge for industrial application.
- Ability to demonstrate the impact of the internship on their learning and professional. Development through mapping to relevant competencies.
- Understanding of lifelong learning processes through critical reflection of internship experiences.

STUDENTS LIST

SEMESTER & SECTION: 8th, ISE-1 & 8th, ISE-2 TOTAL NUMBER OF STUDENTS: 46+52=98
