

# ANNEXURE 1

Sl. No.	Criteria Sub Sections
1	1.4. State the process for defining the Vision and Mission of the Department, and PEOs of the program
2	1.5. Establish consistency of PEOs with the Mission of the department

# 1.4. State the process for defining the Vision and Mission of the Department, and PEOs of the program

- Vision, Mission, and Program Educational Objectives (PEOs) have been formulated and approved based on feedback obtained from stakeholders.
- The proof of the process flow of defining Vision, Mission and PEOs is documented:

### 1. Process for Formation of Vision and Mission of the Department:

The Department establishes Vision and Mission through a review process involving the stakeholders, like parents, industries, alumni, faculty and students keeping in mind the future scopes of the Department and the societal requirements.

- Step 1: Vision and Mission of the institution are taken as the guiding base.
- Step 2: Meeting requests were sent to the stakeholders for active participation. Internal and external stakeholders were consulted and based upon the consultation Department vision and mission was developed.
- Step 3: Department Advisory Committee reviewed the Department vision and mission, modified it according to the inputs from internal and external stakeholders.
- Step 4: After a series of discussions, if Department vision and mission was found to be unsatisfactory, they were again sent to Step 2 for modification.

Based on the mutual consensus from the stakeholders, If the Department vision and mission was found to be satisfactory, and it was published, and process flow chart is depicted in Fig.1.1

Fig.1.1 Process for defining the Vision, Mission of the Department

### (a) Draft of Vision and Mission of the Department

### **Vision Statement of the Department**

To be a Centre of Excellence in Mechanical Engineering education and research to confront real world societal problems.

### Mission Statements of the Department

M1: To push the frontiers of pedagogy amongst the students and develop new paradigms in search.

M2: To develop products and technologies for the benefit of society in collaboration with industry and commerce.

M3: To mould the young minds and build a comprehensive personality by nurturing strong professionals with human ethics through interaction with faculty and experts from academia / industry.

# (b) Feedback from the Stakeholder about the draft Vision and Mission of the department

Feedback on the draft vision was collected from stakeholders, and it summarizes as

### ATRIA INSTITUTE OF TECHNOLOGY

Arundusgar, Bengahau - 560024 Department of Mechanical Engineering

### ALUMNI FEEDBACK FORM FOR VISION AND MISSION: ME Department

We wish to inform that our department is going in for National Board of Accreditation (NBA) accreditation which is a board of Engineering and Technology, which promotes continual improvement in academic Engineering program. A crucial step in this procedure is to identify and assess the Vision. Mission are defined in the statements which describe the expected accomplishments of department. We need your kind help in assessing this Vision, Mission by filling this survey. SundalL YEAR OF PASSING: ALUMNI NAME: \_ ORGANISATION NAME: Auto IN plot LAY Vision Statement of the Department To be a Centre of Excellence in Mechanical Engineering education and research to confront real world societal problems, Mission Statements of the Department M1: To push the frontiers of pedagogy amongst the students and develop new paradigms in search. M2: To develop products and technologies for the benefit of society in collaboration with industry and commerce. M3: To mould the young minds and build a comprehensive personality by nurturing strong professionals with human ethics through interaction with foculty and experts from academia / industry. (SCALE: 1 = Never / Very Poor, 2 = Rarely / Poor, 3 = Occasionally / Average, 4 = Often / Good, 5 = Completely / Excellent) 1. How well do you think the department's vision of becoming a "Centre of Excellence" in Mechanical Engineering was reflected in your academic experience? To what extent did the department help shape your personality and professional ethics through mentoring, alumni interaction, or expert sessions? 0 0 Were you prepared to work professionally in industries of modern technologies? Do you feel the program prepared you to take on leadership roles in education, O entrepreneurship, or administration while upholding strong ethical values? Did your education in the department equip you to solve engineering problems using fundamental science and advanced tools? (Scale: 1 = Never / Very Poor, 2 - Rarely / Poor, 3 - Occasionally / Average, 4 - Often / Good, 5 - Completely / Excellent) Your Comments:

### (c) Discussion of stakeholder feedback on the draft Vision and Mission of the department in the DAC meeting

The feedback collected from stakeholders was discussed during the Department Advisory Committee (DAC) meeting, and their suggestions were incorporated into the Vision and Mission statements. The revised versions are presented below, with changes based on stakeholder input highlighted in bold.

### **Vision Statement of the Department**

To be a Centre of Excellence in Mechanical Engineering education and **interdisciplinary** research to confront real world societal problems.

### **Mission Statements of the Department**

M1: To push the frontiers of pedagogy amongst the students and develop new paradigms in search.

M2: To develop products, **processes** and technologies for the benefit of society in collaboration with industry and commerce.

M3: To mould the young minds and build a comprehensive personality by nurturing strong professionals with human ethics through interaction with faculty, alumni and experts from academia / industry

## (d) Feedback from the Stakeholder about the first revision of the Vision and Mission of the department.

The feedback collected from stakeholders on Vision and Mission was discussed in the Department Advisory Committee (DAC) meeting, and their suggestions were incorporated into the Vision and Mission statements.

### (e) Discussion of stakeholder feedback on the first revision of Vision and Mission in the DAC meeting

The feedback collected views on revised Vision and Mission from stakeholders was discussed during the Department Advisory Committee (DAC) meeting, and their suggestions were incorporated into the Vision and Mission statements, as presented below. The changes made based on stakeholder input are highlighted in bold

### **Vision Statement of Department**

To be a Centre of Excellence in Mechanical Engineering education and interdisciplinary research to confront real world societal problems with professional ethics.

### **Mission Statements of Department**

M1: To push the frontiers of pedagogy amongst the students and develop new paradigms in search.

M2: To develop products, processes and technologies for the benefit of society in collaboration with industry and commerce.

M3: To mould the young minds and build a comprehensive personality by nurturing strong professionals with human ethics through interaction with faculty, alumni and experts from academia / industry.

# (f) Feedback from the Stakeholder about the Second revision of the Vision and Mission of the department.

The feedback collected from stakeholders on Vision and Mission was discussed in the Department Advisory Committee (DAC) meeting, and their suggestions were incorporated into the Vision and Mission statements. To frame a final Vision and Mission.

### 2. <u>Process for Formation of Program Educational Objectives (PEOs) of the Department:</u>

The Program Educational Objectives (PEO) was formally established in a process carried out before the launch of the program. PEO's were formulated as a result of a series of meetings, comprising of Faculty, Students, Alumni and industry representatives.

The PEOs are reviewed through the following process steps:

- **Step 1**: Vision and Mission of the Institute and Department are taken as the basic guide for developing program educational objectives
- **Step 2**: Internal and external stakeholders were consulted by Program Assessment Committee and based upon the consultation PEOs were developed.
- **Step 3**: Program Assessment Committee reviewed the PEOs and modified them according to the inputs from internal and external stakeholders.
- **Step 4**: After a series of discussions, if the PEOs were found to be unsatisfactory they were again sent to Step 2 for modification and the process flow chart is depicted in Fig.1.2.

Fig.1.2 Process of defining PEOs

### (a) Draft of Program Educational Objectives (PEOs) Department

- **PEO 1**: Apply fundamental basic science and computer aided technology to solve problems encountered in all streams of Mechanical Engineering and beyond like Robotics, Nanoscience and Computational fluid dynamics.
- **PEO 2:** Demonstrate professionalism by applying their technical skills and knowledge: across the spectrum of scientific disciplines in Additive manufacturing, Digital mechatronics thereby supporting global societies.
- **PEO 3:** Work ethically both as an individual and as a team member, eventually becoming leaders in various domains such an entrepreneurship and administration.

### (b) Feedback from the Stakeholder about draft PEOs of the department

Feedback from is collected about the PEOs of the department and analyzed further to take corrective action.

### ATRIA INSTITUTE OF TECHNOLOGY
